

Here are some **precautions** we have taken based upon what some other churches are doing and in light of the closing of schools and the announcements by Governor Kemp:

- We have placed hand-sanitizing stations in the major corridors of our campus.
- We already stock our restrooms with anti-bacterial soap.
- Our janitorial services have offered extra-detail in cleaning common surfaces.
- Weather permitting on Sundays and Wednesdays, we will keep the lobby doors positioned opened during the major times of entering and exiting the building to prohibit the need of touching the doors.
- We are placing bulletins on tables rather than have people hand them out to reduce hand-to-hand touching.
- We encourage everyone to avoid handshakes, hugs, and other forms of "close" contact.
- Rather than passing the plate to receive the offering, plates will be located in the exits of the Worship Center, thereby allowing members to give by dropping it in the plate as they pass. We also encourage you to use our online giving platform. The link is: <https://fbclithiasprings.churchcenter.com/giving>
- Continue to encourage anyone in your family with a compromised immune system to stay home and watch our Facebook broadcast. Also encourage anyone with any symptoms of illness to remain home until they are better.
